EXPERIENCE

Octoly

Web Developer

July 2013 - Present

NYC, USA

I'm currently in charge of the public API from authentication to performance through documentation.

Working with Rails 4, Elasticsearch, DynamoDB, MySQL.

Letitcast

Web Developer

Mars 2009 - June 2013

Paris, France

Took charge of the service on both frontend and backend with Rails, Sinatra and jQuery.

Built a Sinatra service to handle ftp uploads and encoding.

Migrated the monolithic application to a backend API + 4 frontends and used rails engines to share code and assets between clients.

Helped maintaining the applications from rails 2.3.10 to rails 3.2.8.

Frequent use of various APIs: Amazon S3 and CloudFront, Zencoder, Scribd, Embedly, Postmark, HipChat.

Eyeka

Intern · Web Developer

January 2008 - January 2009

Paris, France

I worked on parts of the back and front office.

Built a contacts importer compatible with Gmail, Hotmail, Yahoo and Facebook.

Capoceia

Intern · Web Developer

May - October 2007

Paris, France

I took charge of a bunch of websites for photographer, sailmaker and realtors.

I worked on the second version of the backoffice.

Nadeo

Intern · Game Developer

May - September 2005

Paris, France

Participation in the development of Virtual Skyppeer 4 and TrackMania Nation.

I created an internal designer tool to create in-game clouds which is still in use for all Nadeo's games.

I worked with C++ and 3DSMax.

EDUCATION

EPITECH - European Institute of Technology

Bachelor degree in Computer Science

2004 - 2009

Paris, France

I2IT, International Institute of Information Technology

Master in Computer Engineering (discontinued)

2004 - 2009

Pune, India

SKILLS

Open-source: I'm the author and maintainer of 3 jQuery plugins: [multiselect](#), [switchy](#), [listy](#). I'm also making my debut as a Javascript game developer with [my seagull buddy](#) !

Natural languages: French (mother tongue), English (professional prociency)

INTERESTS

Sailing, windsurfing, climbing, guitar, coding, traveling...
